

Robin Horsfield

854 Esquimalt Road, Esquimalt, BC, Canada
robinhorsfield@gmail.com
(705) 791- 0519

HIGHLIGHTS OF SKILLS AND QUALIFICATIONS:

- Skilled in Solidworks, Fusion 360, AutoCAD, and Microsoft based programs
- Experienced in operating and working on marine vessels
- Have performed system design calculations using MS Excel
- Organized and optimistic individual who thrives in an individual or team setting
- Maintains strong accuracy and attention to detail in technical and written reports
- Familiar with safe working practices in a field setting

EDUCATION:

Bachelor of Mechanical Engineering 2021-2024
University of Guelph, Guelph ON, Canada

- In our final year capstone project myself and three other mechanical engineering students designed and implemented a fully automated maple syrup bottling line for a local maple syrup producer.
- Recipient of the Linamar entrance scholarship for mechanical engineering.

Mechanical Engineering Technology 2017-2021
Georgian College, Barrie ON, Canada

- Courses include: Manufacturing Processes, Machine Shop, Environmental Sustainment, CAD Mechanical, Programmable Controllers, thermodynamics and fluid dynamics.
- Graduated with Honors

EMPLOYMENT EXPERIENCE:

HodgCo. Australia October 2025-Present

- Organized the companies Solidworks assemblies and created a PDM system using excel to track drawing completion and allow ease of checking.
- Created more than 1000 part and assembly drawings as well as customer manuals for two earth moving machines.

Brandelle Industries (Internship) Summer - 2021-2023

- During the summer of 2021, 2022, and 2023 I worked as an intern for Brandelle Industries where I was a part of a design team who developed automotive automation systems using SolidWorks.

Innovative Automation Inc. in Barrie Ontario (Co-op) 2019-2020

- Worked as a design co-op student mainly in the machine shop perfecting my machining skills and understanding all the processes of part drawings and building automaton.

Canplas industries in Barrie Ontario (Co-op) 2018

- Worked with the innovation team doing R&D work testing grease interceptors to create better flow for fluid separation.

Americas Cup Artemis Racing in Bermuda (Internship) 2016

- Worked with a team of naval engineers to make improvements on high speed 45-foot carbon sailboats (hydraulically powered) that can hit speeds of upwards of 75 kph
- Worked with technicians to install, modify and customize parts

Professional Cyclist 2018-Present

- Compete at a national level across North America and parts of Central America in cross country mountain bike racing.

ENGINEERING AND COMMUNITY LEADERSHIP

Robotics Team 2021-2022

University of Guelph

- Helped lead the mechanical design and manufacture team for a mars rover tasked with soil sample collection.

Somersfield Academy 2010-2015

- From grade 6-10 I was a part of a Lego robotics which then evolved to VEX robotics. We traveled to multiple competitions and would code the robots using C++.

Guelph Cycling club 2025-2026

Guelph, ON

- Led weekly coached sessions helping young cyclists improve on their confidence and abilities.
- Fostered an inclusive and welcoming environment for people of all ages and abilities

TRAINING AND CERTIFICATIONS

- Valid driver's license
- In the process of applying for my AScT
- Certified SolidWorks Associate
